

En effektiv demonstration.

Vælg det rette format – Brug en digitalt optaget kilde af høj kvalitet.

Kend dit materiale – Spil musik, som passer til det enkelte miljø (f.eks. afdæmpet jazz eller klassisk musik til en restaurant eller energisk musik til et motionscenter eller til en butik).

Vælg den rette lydstyrke – Vælg lydstyrken ud fra, hvordan systemet skal anvendes (baggrundsmusik i et stille lokale og forgrundsmusik i lokaler med masser af aktivitet og samtale).

Forbered kunderne – Fortæl dem, hvad de skal lytte til, og hvad de skal lytte efter, før musikken starter.

Overdriv ikke – Spil 30-45 sekunder af et nummer, og skru derefter ned for lyden.

Kontrollér resultaterne – Sørg for, at kunderne hører det, du beder dem om at lytte til. Spørg, om de kunne tænke sig samme ydelse fra deres nye system.

Den ydelse, erhvervs kunderne vil have. Den pålidelighed og enkelhed, de har behov for.

FreeSpace®-højttalerne er udviklet til at opfylde erhvervs kunders behov med patenteret teknologi fra Bose. Musikken gengives med dybde og detaljer, så resultatet er et miljø, der øger kundeoplevelsen og giver erhvervs kunderne en konkurrencemæssig fordel. Opkald og meddelelser kan høres tydeligt i hele lytteområdet. Og systemet kører pålideligt hele dagen – hver dag.

En god demonstration.

Viser kunderne, hvad der er muligt, på en effektiv måde for at øge salget. Kunderne investerer ofte mere, end de oprindeligt havde til hensigt, når de hører en god lyd demonstration.
